- Medical records are only available with approval
- Data will never be lost

Financial Services

- Transaction speed 3-10 seconds
- Transaction fee 0.5-3\$, no matter the amount
- No bank middleman needed

Governance

- Impossibility to fake election results
- Signing all documents with one button
- Fast interaction at all levels

VeneraChain

VeneraChain is a blockchain network that is specifically designed for supply chain management.

It aims to improve the supply chain efficiency, traceability, and transparency by utilizing distributed ledger technology, smart contracts, and integration with the Internet of Things (IoT).

Relies on the Proof of Stake method, by creating an internal digital currency to operate the VeneraChain network (VCH)

The VeneraChain team seeks an innovation to solve the problems related to the complex traditional method of validators in the rest of the networks and make it more fluid and interactive in order to increase the decentralization of the network.

VeneraChain is designed for interoperability, smart contract execution, and scalable decentralized applications. It provides a secure and high-performance environment for building and deploying blockchain-based solutions.

What Does The Term ICO Mean?

ICO (Initial Coin Offering) which is how funds are raised for a new cryptocurrency offering*

Startups are collecting capital from investors or buyers for this cryptocurrency to use this money to create a cryptocurrency project.

Interested in buying the new token for investors or traders because the ICO is a profitable way for investors because the initial offer of the token (ICO) is always at a very cheap price, but after the launch of the project the price of the token will rise, so investors will earn a lot of the money from selling it.

This method targets the segment of investors and traders in this market who have knowledge of cryptocurrency or who like to invest in this field

*It's similar to an IPO (Initial Public Offering) which raises funds when a new company ventures on to the stock market.

Some Initial Coin Offering (ICO) Problems

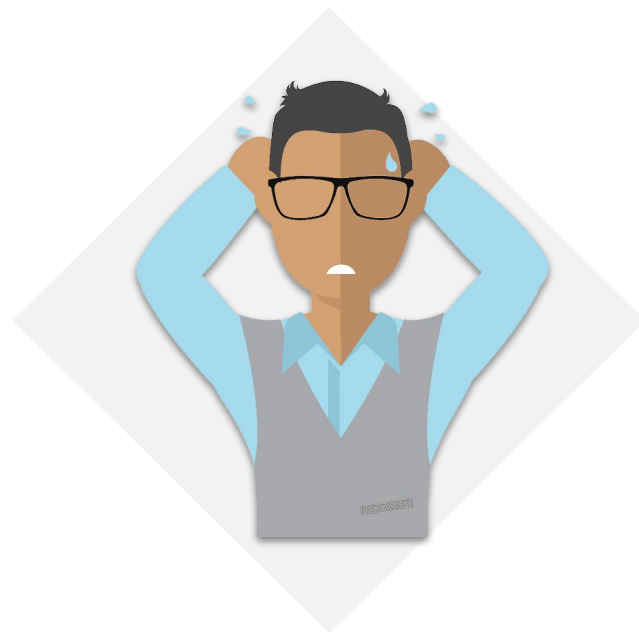

Scam ICO projects that are closed once the funds are raised and cause the loss of many inexperienced investors in this field.

Idea of the projects is not successful, and thus the investors in them lose

Project token is not successful because it is not directly related to the project.

There are many successful blockchain projects with legal companies and successful tokens that are directly linked to the project's blockchain, but losses for investors are also possible as happened in a lot of projects.

What is The Solution to Restore Confidence to Investors so That They Can Invest in Successful ICO Projects?

What is The System That Determines or Reduces The Loss of Investors by Investing in Such Projects?

ROIC.FINANCE

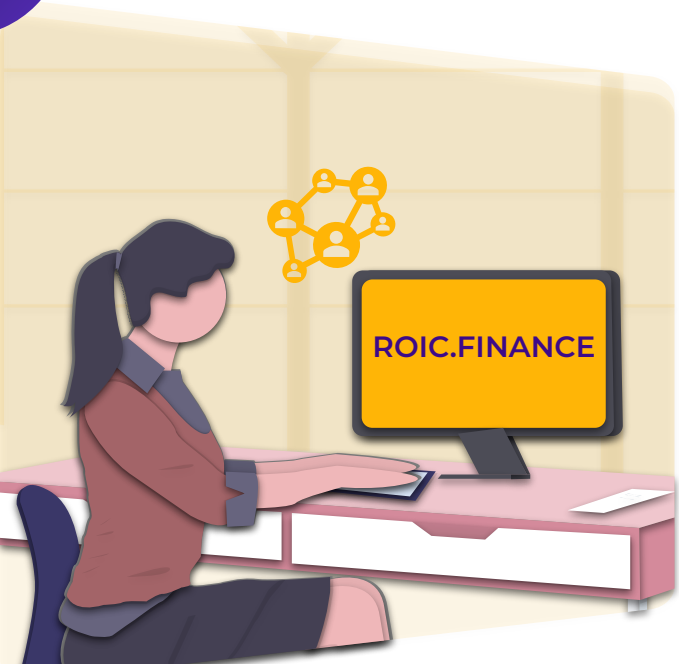

What is ROIC.Finance System?

Investment tool created by the VeneraChain team
for the purpose of selling and distributing network VCH coins.

ROIC came to solve all the problems of ICOs in the market, reduce the loss of investors, and make them more interactive with the project.

ROIC.Finance motivates investors to stake the VCH coins in contrast for an annual return with weekly profits, at very excellent rates, and works to attract the largest number of validators to spread decentralization on the VeneraChain network.

ROIC.Finance system also provides solutions to restore confidence in the cryptocurrency markets by attracting new investors with simple expertise.

ROIC.Finance System

What are the main benefits that motivate investors to buy and stake VCH tokens and start earning with ROIC.Finance system?

Weekly Income

Stake Bonus

**Auto Re-stake
Income**

**The Price
Difference**

Referrals Income

**Referrals Auto
Re-stake Income**

You cannot make any transaction or withdraw tokens during the staking period, but you can withdraw your bonuses at any time.

Weekly Income

Anyone who stakes VCH in the system will get a Weekly income may potentially reach up to 100% per year (ARR like farming).

How are The Weekly Income Calculated?

Weekly Rewards = Total VCH you Staked in ROIC \times K.factor

$$\text{K.factor}^* = \frac{\text{Weekly farming commission}}{\text{Amount VCH staking on farm}}$$

All the purchase funds of VCH for all investors goes to the central wallet of the ROIC.FINANCE.

Then turns into LP for trading pairs **within the platform** to take advantage of the **Swap, Fees, and Lp** operations, and then start the **Yield Farming** process.

*Calculated every week

For Example \gg

$$\text{K.factor} = \frac{300\,000 \text{ VCH (Weekly farming commission)}}{15\,000\,000 \text{ (Amount VCH staking on farm)}} = 0,002$$

You stake 18 000 VCH

K.factor = 0,002

Weekly income = $K \times 18\,000 = 0.002 \times 18\,000 = 36 \text{ VCH}$

Stake Bonus

UP TO 100 %

Stake Bonus in ROIC.Finance System

Duration of Staking	Stake Income*
3 Months	1%
6 Months	12%
1 Year	15%
2 Years	30%
3 Years	50%
4 Years	100%

*The stake bonus is paid once, at the end of the stake.

The staking bonus depends on the staking period of the VCH tokens within the ROIC FINANCE system.

If the tokens are staked for 4 years, the staking bonus will reach 100% profit.

The Price Difference

300\$ at seed stage

(1 VCH = \$0.03)

-> grown up to

1500\$ at trading stage

(1 VCH will start from 0.15\$)

The Price Difference

The current stage is Seed stage and the VCH coin will be sold at a value of \$0.03.

The suggested price at the beginning of trading is 0.15 or \$0.2, which is more than 5 times the price in the seed stage.

The investor who buys in the Seed stage will multiply his capital several times.

NOW

SEED

1 VCH = 0.03\$

1 VCH = 0.05\$

**Public Sale
(IEO)**

1 VCH = 0.07\$

Public Trade

1 VCH = 0.15 - 0.20\$

Total supply = 400,000,000 VCH

How Much You can Earn?

Example of Calculating Income From Various Investment Tools*

You decide to invest \$500 for 2 years (24 months).

How to Get League Status?

There are 2 Factors

The First Factor

Amount of staked token

Depends on the size of the staking token

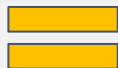

The Second Factor

Stake period coefficient

Depends on the duration of the Staking

Your League

How to Get League Status?

Staking period	Formula	Coefficient
Staking for 4 year	48/48	1
Staking for 3 year	36/48	0,75
Staking for 2 years	24/48	0,5
Staking for 1 year	12/48	0,25

Staking months	3/48	0,0625

Example >

Peter has purchased **18 000*** VCH and has taken a Stake for **4 years**.

What is his League?

The 4-year staking period factor = $48/48 = 1$

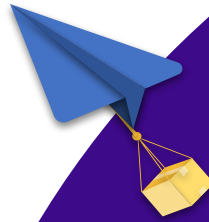

18 000 VCH $\times 1 = 18\ 000$ points - league is **Platinum**

The Minimum Required Tokens to Stake in ROIC.Finance System

The minimum amount of stake in the
ROIC Finance system is **1000 VCH**

Seed Stage
1VCH= 0.03\$

Anyone who owns VCH can stake it on the ROIC.Finance
website for a highly rewarding weekly return.

The Benefits of VeneraChain and ROIC System Partnership

The ROIC system brings a very large audience to the VeneraChain, because it includes all categories of professionals in this field, or those with little experience, or even those who have no experience at all.

The ROIC system can attract a large paying audience without diving into the fine details, which facilitates the success of the VeneraChain project

The majority of ROIC subscribers are marketing experts who do marketing for the project, so marketing is not limited to the company's e-marketing only

The ROIC system is designed in a way that makes the subscriber continue to make a stake and not sell his coins in order to preserve the weekly income. This defend the project against rumors and negative news. which gives loyalty to the audience of VeneraChain, and this thing is not present in all cryptocurrency projects at all.

Validators: The majority of the ROIC system subscribers are validators, so there is no problem in searching for auditors.

The large number of validators will increase the decentralization and security of the VeneraChain network

The Keys of Combining VeneraChain and ROIC.Finance

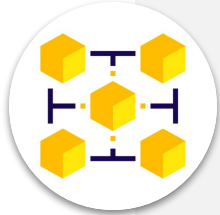

Unified Ecosystem

Allowing users to enjoy the benefits of both platforms.

Interoperability

It is for seamless communication between blockchain networks.

Increased Network Security

It will help prevent malicious attacks and ensure the stability and reliability of the network.

Scalable Decentralized Applications

This will provide users with access to a wider range of applications and services.

Staking and Reward System

Providing new opportunities for investors and users.

Smart Contracts

Use this technology for more efficient and secure transactions.

Synergistic Partnership: Leveraging the ROIC.FINANCE Referral System for Mutual Growth and Adoption in the VeneraChain Ecosystem

Unified Referral System

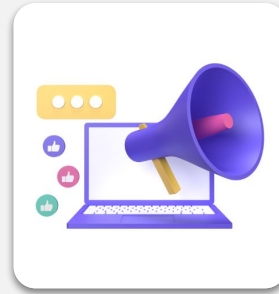

Integrate ROIC. Finance referral program with VeneraChain to incentivize users for referring new users to both platforms, thereby expanding their user base and encouraging more participation in staking and token sales.

Cross-Platform Rewards

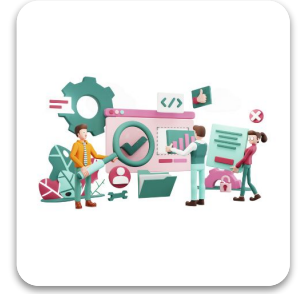

Users can earn VCH tokens on ROIC. Finance and IVSW tokens on VeneraChain through referrals, promoting participation in both platforms and creating a mutually beneficial relationship.

Co-Marketing Campaigns

Work together on marketing initiatives to promote the integrated referral system and other beneficial features of both platforms, such as social media campaigns, sponsored content, and influencer partnerships.

Joint Development

Encourage the development teams of VeneraChain and ROIC to collaborate and identify new features and improvements that benefit both platforms, potentially leading to new services and applications that leverage their strengths.
